DETAILED ACTION

Allowable Subject Matter

Claims 1-6 allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the prior art for all the limitations after the term "comprising," but especially: first and second permanent magnets that are arranged so as to repulse each other, the first magnet is attached to the wippen and the second magnet is attached to an immovable piano structure, wherein the first magnet is attached to the bottom of the wippen between a wippen center pin and the repetition lever flange, and the second magnet is attached to the wippen rail. The examiner further points out page 4 of the specification as indicating evidence of unexpected results regarding applicant's unique placement position of the pair of opposing permanent magnets that repulse, described in claim 1.

Claims 2-6 are additionally allowable for further limiting claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
